### SOFT KILLS & KNOWLEDGE

#### Soft skills:

Initiative  
Adaptability  
Critical thinking

#### Knowledge:

**Frontend:** HTML, CSS, JavaScript, React.js, Gatsby.js, Bootstrap, jQuery.  
**Backend:** .NET, Express.js, SQL Server, MySQL, MongoDB, PHP, Laravel.  
**Other:** REST API, Strapi CMS, Responsive design, Git workflows.

### WORKING EXPERIENCE

#### Golabs / Software Engineer II (Remote) (May-Aug 2022)

##### Projects:

**SmartChoice:** School application, lottery, and registration management software offered and powered by SchoolMint Inc within the US.

- Assigned to work in multiple SmartChoice systems with two agile (Scrum) development teams (Golabs & SchoolMint).
- Developed new features based on Schools/Institutions requirements.
- Identified and resolved issues across multiple Schools/Institutions systems. This included UI and business logic fixes.
- Used Pivotal Tracker tool to give updates and keep track of reported issues or new features via tickets.
- Used Bitbucket for version control.

**Technologies:** HTML, JavaScript, JQuery, CSS, Laravel, PHP, MySQL, Docker, AWS.

**Kudos:** IAFA org website focused on the prevention of the use of addictive substances for elementary school students.

- Worked with a project manager under the Scrum methodology.
- Implemented UI changes across multiple sections of the website and modules of the admin panel. The changes were based on mockups from designers, considering responsive behavior across multiple devices, browser compatibility and accessibility.
- Used Gitlab for version control.

**Technologies:** HTML, JavaScript, Tailwind CSS, Laravel, PHP.

### PERSONAL PROJECTS

**Bargas (In development):** Informative website and online ordering platform for a restobar.

**[jonathanvs.com](http://jonathanvs.com):** Personal portfolio type website.

- Frontend and backend development.
